

The 3M™ PPS™ (Paint Preparation System) is a unique, closed paint system which eliminates the need for separate mixing cups and filters. Instead, paint is mixed in a liner bag which marries to a direct filter and is then mounted on the spray gun with a dedicated adapter. As freshly filtered paint is dispensed, the liner bag collapses, allowing the spray gun to function at any angle. Liner bag and filter are disposable, leaving only the spray gun and adapter to be cleaned. The 3M™ PPS™ Paint Preparation system is a cleaner, faster system, safe from outside contamination and offers considerable time and solvent savings on gun and parts cleaning.

### PPS™ Key Features

- Up to 70% savings of clean solvent
- Closed system reducing outside contamination
- Faster system from mixing to disposal
- Spray gun can function at any angle
- Available in three sizes (200 ml, 650 ml and 850 ml)
- Less operator exposure to solvents and reduction in VOC's

### New Series 2.0 PPS™ Features

- Four-point connection on the adapter to the lid for increased stability
- Quarter turn lid locking system for quick assembly and disassembly
- Larger fluid passage opening in the adapter and lid to allow more material flow
- Standard hard cups have measurements printed directly on the plastic
- Lids and collars are now combined into one locking piece

### Lids and Liners

Description	Part Number
200 ml Lids and Liners (50 PK)	CA91-571-50
650 ml Lids and Liners (50 PK)	CA91-566-50
850 ml Lids and Liners (50 PK)	CA91-562-50

The 3M™ lids and liners come in a 50 piece pack and now include 1 hard cup in each kit. A set of lid caps are also included in each box.

### Hard Cups - Gravity & Siphon

Description	Part Number
200 ml Hard Cup (2 PK)	CA91-570-P
650 ml Hard Cup (2 PK)	CA91-565-P
850 ml Hard Cup (2 PK)	CA91-561-P

The hard cups for gravity and siphon now have a liner access window and large opening on the top for easy lid and liner removal. Measurements printed on the plastic hard cups are a new addition to the 2.0 series.

### H/O Pressurized Cups

Description	Part Number
200 ml & 400 mL H/O Press. Cup	CA91-586
850 ml H/O Pressure Cup	CA91-560
Pressure Regulator for Cups	52-5R2

The H/O pressurized cups by 3M™ offer an easy and clean solution to spraying thicker viscosity materials. Screw on type lid collar to ensure a nice and secure seal when pressurized.

### Adapters

Type / Model	Part Number
Type: S21 - TJR	CA91-573
Type: S2c - Jaguar, CPR-G, T3	CA91-574
Type: S18 - Lynx, Panther, Tomcat, CSLP, CAT-Xpress, CPR, CPR-FE, Tomahawk, FE-Line LCFM, FE-Line FF	CA91-575
Type: S27 - CAT-X	CA91-576

### Lid and Liner Dispensers

Description	Part Number
650 ml & 850 ml Lid Dispenser	91-468
650 ml & 850 ml Liner Dispenser	91-469

Wall mountable dispensers designed to hold PPS™ lids and/or liners. Easy access for top loading and dispenses one liner at a time. Keeps liners clean, neat, organized and free from contamination.
